ACM Homes residents in Cavite attend Project RISE orientation

PTC's Project RISE Team successfully conducted a Virtual Orientation for the different Homeowners' Associations (HOAs) of ACM Homes Communities in Imus and General Trias Cities last September 10.

All HOA Officials who participated in the Project RISE Virtual Orientation listened attentively during the presentation, which was focused on capacitating and educating their residents on Disaster Preparedness and Resiliency.

Everyone pledged their participation and support for the program, as they saw the importance and relevance of Project RISE in making their communities and residents disaster-prepared and disaster-resilient.
