

## *Lifelinks and Trenkwalder welcome pioneering batch of global Filipinos to Hungary*

Lifelinks deployed its first batch of global Filipino workers to Hungary in partnership with Trenkwalder HR Solutions KFT, one of the leading HR service providers in Central and Eastern Europe. The 32 Filipinos left for Hungary last December 18 and will be assigned as production workers in the city of Szombathely. Three more batches of workers are lined up for deployment as Lifelinks continues to offer more career opportunities across Europe for driven and talented global Filipinos.

The pioneering batch included members of our very own PTC Group family, Smartpark's Quitoy, Buboy, Rommel, Raffy, and Edna, who served the company as part of Building Administration's Housekeeping Team.
