

Sea Mariners of Tanza and Iloilo complete their onboarding training

The Sea Mariners of Tanza National High School (TNHS) completed their onboarding training last November 10 with the help of PTC and ASSIST Asia. The 15 members of the ship also elected their officers who will take the lead for the pilot year of the ship. Adult Adviser, Mark Anthony Decena also signed the Charter Agreement for the Tanza NHS Ship.

Sea Mariners from the St. Therese College (STC) ship in Iloilo also completed their Virtual Onboarding training last November 23. Since the establishment of the STC ship last August 31, their elected officers have conducted the Master of Disaster (MOD) board game with the other students of STC as part of their ship activity.

Last November 19, the Sea Mariners team went back to its SOS Children's Village ship in Muntinlupa, Alabang, and facilitated a game of Master of Disaster as requested by the students.
